

From download to licence activation

1. Software download

- Visit our website <https://stute-engineering.de>
- Select 'Download' from the menu
- Select a product category, e.g. DCX
- Select the software and click 'Download'

2. Software installation

2.1 MS-Windows

- Run the setup file as 'Administrator'
- Follow the instructions provided by the setup programme
- Once the installation is complete, you will find the programme icon on the desktop

2.2 macOS

- Download the ZIP file
- Double-click the ZIP file to extract the programme. It will be saved in the 'Downloads' folder
- Move the programme to the 'Applications' folder in Finder

3. Test the software (DEMO Mode)

- Try out the software in DEMO mode
- The 'red' licence window that appears when the programme starts indicates that you have not yet purchased a licence
- Click 'Close' to start the programme in DEMO mode

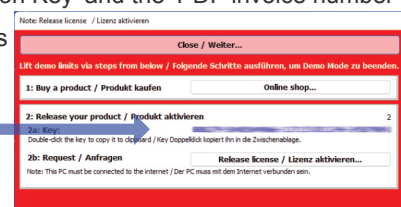

4. Buy software

- Once the test has been successfully completed, you can purchase a product from the online shop: <https://shop-en.stute-engineering.de>
- You will receive an email containing your PDF invoice within 1–2 working days

5. Activate your license (Exit DEMO Mode)

- Request activation of your licence via our online form: <https://swa-en.stute-engineering.de>
- To do this, you will need, amongst other things, your personal 'Installation Key' and the 'PDF invoice number'
- You will find the 'Installation Key' in the red licence window that appears when the programme starts
- Double-click on the key to copy it to the clipboard
- You will have received the PDF invoice containing the number in advance (see step 4)
- Activation will take place within one working day. You will receive an email

Please note: When you purchase a software product, you acquire the right to 3 activations, even on different PCs. An internet connection is required for activation.
